NO. 11.

A Talk With Hugh J. Mohan Concerning Nevada.

The following conversation occurred between Mr. Mohan and an Enterprise reporter:

Reporter—Why is it, Mr. Mohan, that California is more frequently mentioned in the East than Nevada?

Mr. Mohan—Because the representatives of the former State are tireless in their declarations of her future greatness, while those of the latter are handicapped by those who have preceded them.

Reporter—Can you suggest a remedy for this condition of affairs?

Mr. Mohan—Yes, sir. Let the world know that Nevada is as rich a State in soil, agricultural advantages and mineral resources as California, and then she can hold her own, the only difference between the two being that the Comstock is confounded with the State. One State is looked upon as the Mecca of every adventurous idea of success, and the other a stopping place for the accomplishment of purposes. The remedy is simply to give more attention to your own interests in the future than you have in the past to California, and the seed thus sown for your own future advancement will bring forth such rich fruit that there is no market in the world but will be only too glad to become its possessor.

Reporter—Don't you think, Mr. Mohan, that Eastern prejudice has much to do with the present condition of Nevada?

Mr. Mohan—I will say no, I do not; but the lack of enterprise on the part of her people has everything to do with her present condition. Her miner receives the highest wages paid in the world, while he brings forth from the bosom of nature the wealth which controls the destinies of the nation. Her herdsmen are better paid and respected than any in the universe. Her children are intelligent, but more independent, than any on the face of the earth, and her future, providing the people care to make it so, is brighter than that of California. Here can be found health, happiness and good old age.

Reporter—Where are you going to reside in the future, Mr. Mohan?

Mr. Mohan—Among the good people of Nevada.

REPUBLICAN STATE PLATFORM.

I. The Republicans of Nevada, in convention assembled, reaffirm their unflinching loyalty to the principles of the party as enumerated in their national platform, from Lincoln to Blaine. We believe that liberty is the inalienable right of every man, whatever his race or color, and in the equality of every man before the law, with the unrestricted right of every citizen to cast his vote for whomever he chooses, with the assurance that it will be counted as cast. The preservation of the Union and free government are now recorded in history as the work of the Republican party. Union, liberty, equality and justice are the principles which have largely contributed in making \$9,000,000 of people the best fed, the best clothed, the happiest, the most intelligent and powerful majority of both Houses of Congress directing the policy of the nation. The abolition of slavery by the Republican party has opened to free men and free labor every acre of land within the jurisdiction of the United States, and has enabled the tens of millions of the North and of the South to associate in common brotherhood for the protection of their rights and the advancement of their intellectual and material prosperity.

II. We arraign the Democratic administration of President Cleveland for having failed to keep the pledges on which it came into power. It promised economy and retrenchment, and has been most extravagant in expenditures and appropriations, which, for the current year, largely exceed the abundant revenues of the Government. It promised to reduce the surplus in the Treasury, but reversing the rule of majority of both Houses of Congress directing the policy of the nation, it has permitted each surplus to be idle and accumulate to the injury of the business of the country, and has refused to approve of the action of a large majority of both Houses of Congress directing that such surplus be applied in payment of the interest-bearing debt of the country. It promised to care for and give protection to the disabled soldiers and sailors of the late war, and has treated with contemptuous and every pension bill against which it could find any shadow of technical objection. It promised to protect the person and property of citizens at home and abroad, and to maintain the dignity and honor of the nation, yet in its relation with Great Britain it has shown a reluctance to give protection to either person or property, and has permitted our flag to be insulted, without proper protest, almost in sight of our shores, while by hasty and unseemly action it has unnecessarily jeopardized our friendly relations with the Mexican Republic, and made our Nation ridiculous in the eyes of the world. Its evasion of civil service reform, in which its leading representatives are pledged, have been bold, insolent and lawless. It has shown itself no friend to Nevada, because among its first acts of administration, it closed the United States Mint in Carson City in utter violation of the law, to the great detriment of every miner and silver producer in this State in particular, and of the public in general. It has seriously impaired our mail facilities, without shadow of just excuse. It has outraged the express will of Congress, and denied to this people their rights by its unexplained and continued refusal to execute the law, for the removal of a Governor (and his

POLITICAL.

In the capital of this State. It has used the entire power of the Administration to destroy silver as money, and by a refusal to execute the law and pay out silver for Government duties, kept the market for silver at a low price by various devices it has reduced the price of silver since the inauguration of President Cleveland more than fifteen per cent. It has closed the United States Mint in Carson City, thousands of honest laborers out of employment.

III. We favor a tariff upon the imported products of low-priced foreign labor, so as to protect the interests of our own workmen, and for the development of our own industries. We demand in behalf of our mining interests the maintenance of the present tariff on lead, borax and other mineral productions, and in behalf of our wool-growing interests, restoration of the wool tariff of 1867, and we denounce the recent attempt of the Democratic majority in the National House of Representatives to pass the Morrison bill reducing the tariff on the products of our mines and placing wool on the free list.

IV. We believe in American soil for American citizens, and are opposed to non-resident aliens becoming landowners. The public domain should be reserved as homesteads for actual settlers, and the accumulation of large tracts or bodies of land in the hands of corporations or individuals should be discouraged, and in the case of land grants to railroad corporations where the corporations have failed to comply with the conditions of the grant, the land should be forfeited to the General Government, and held for the benefit of actual settlers.

V. We favor the intelligent organization of labor for such worthy purposes as mutual education and for the protection of their interests in all things relating to their welfare and to the industrial welfare of the country, and we favor the enactment of State and National laws providing for the settlement of controversies between employers and employees by methods of voluntary arbitration, or by the establishment of courts of conciliation, which will avoid the waste, loss and ill-feeling resulting from strikes and lock-outs, and the usual expense of litigation.

VI. We denounce the action of the Democratic House of Representatives at its last session in striking from the bill to compensate the citizens of this State for losses sustained in the Indian war of 1860 all claims for supplies furnished for the suppression of Indian hostilities, and also for services rendered during that memorable struggle in which the lives of a large number of our most respected citizens were sacrificed.

VII. We denounce the pretense of the Democratic party of having sympathy for the cause of local self-government in Ireland while the Democratic House of Representatives at its last session, by a vote of 150 yeas and 100 nays, repudiated that principle. In the months of April and June last that body, by Democratic votes, on several occasions rejected resolutions endorsing a free Parliament for Ireland, which is in the following words:

"Resolved that the House of Representatives earnestly sympathizes with Right Hon. Wm. E. Gladstone and his associates in their efforts to secure a free Parliament for the people of Ireland, and congratulates the people of that hitherto unhappy country upon the prospect of an early and successful termination of their long and arduous struggle for the right of local self-government."

Thereby destroying the growth of a liberal spirit throughout Great Britain.

VIII. We commend the efforts of Senator Jones and Congressman Woodburn in obtaining an appropriation of \$20,000 for public land surveys in this State, and we commend the action of the General Land Office in withholding money appropriated for that purpose, and particularly condemn the action of Senator Fair in obstructing the survey of the public lands during the time when appropriations for this State were under consideration by the Senate.

IX. We endorse the action of Senator Jones and Congressman Woodburn in their efforts to suppress polygamy in Utah, and to check the growth of disloyalty in the Government in that Territory, and we fully endorse the principles of the bill introduced for that purpose by Congressman Woodburn. We endorse the action of the Republican Senate in rejecting the bill of the Democratic House of Representatives which has just closed to consider any measure tending to relieve our country from the blighting curse of polygamy and polygamous rule in Utah and the surrounding Territories.

X. We are opposed to the further importation of Chinese to this country, or any other foreign laborers, under the contract system, and we favor any plan for the relief of free labor from competition with convict labor, which does not require upon free labor the expense of supporting convicts in idleness and useless labor. And we favor the adoption of laws providing for the protection of Chinese labor, and such other measures as will improve the material and social welfare of our industrial population. We are earnestly opposed to the belief in the most perfect protection to each and every individual in the enjoyment of the fruits of his personal efforts to earn an honest livelihood.

XI. The paramount interest of civilization rests in the money market as a circulating medium in any country shall at all times bear a constant ratio to the increasing population of that country. Contraction of the currency involves all financial evils to which a nation can be subjected, among which are robbery of the debtor, stagnation of business, reduction of wages and the impoverishment of the masses, and the enrichment of bondholders and grasping creditors. We denounce the bondholders' conspiracy to debase silver and contract the money of the world to a single gold standard as a crime against civilization. It would double the obligation of bonds and all other contracts for the payment of money, which now aggregate in the civilized world the enormous sum of more than one hundred thousand millions of dollars, and thereby make the rich richer and the poor poorer, and impoverish the masses for the benefit of the favored few. We are, therefore, in favor of the free and unlimited coinage of both gold and silver upon the basis now provided by law.

XII. We condemn the Democratic House of Representatives for refusing to make the necessary appropriations for the construction of a suitable navy for the defense of our commerce and the protection of our citizens at home and abroad, and we particularly condemn it for refusing to make any appropriation for the necessary protection of our citizens and commerce, while there was a vast surplus in the Treasury, and thousands of laborers out of employment.

XIII. We again declare our constant sympathy with the just and consistent Republican policy and practice of granting out of the national bounty generous pensions to the disabled veterans of our wars, whether for the country's defense or for the preservation of the Union. We protest against the removal from official places of worthy and disabled Union soldiers to make way for partisan civilians and ex-Confederates.

XIV. In common with all loyal people of the land, we mourn the loss to our country of the heroic dead, and especially the great Republican as well as great soldier and statesman, Gen. Grant. His life with America be as bright as the

POLITICAL.

high and honorable manhood, patriotic devotion to our country and loyalty to the principles of Republicanism which he so fittingly represented and did so much to advance. We shall ever treasure his memory and cherish his deeds.

XV. It is the duty of this State to maintain free schools, not only in towns and thickly populated sections, but in the rural and sparsely settled districts, and as the education of pupils in the sparsely settled sections of the State is necessarily more expensive per capita than where a large number of pupils can attend the same school, such a division of the school money should be made as will furnish the means of education to all children in the State.

XVI. Expenditures beyond the means of private individuals are required for surveys engineering and the construction of reservoirs, canals and other hydraulic works, for the purpose of irrigation in this State. We, therefore, favor liberal appropriations by Congress for surveys, both hydrographical and topographical, to ascertain how the waters of this State, which now run to waste in flood time, may be stored and utilized for the purpose of agriculture, to the end that when all the facts are known, suitable and may be obtained from Congress to enable the Government of the United States to dispose of its lands, and to enable the people to settle upon and occupy the same.

XVII. Resolved, That two years' experience has demonstrated that the present jury law, which compels citizens, at their own expense, without regard to their pecuniary ability or the losses they may suffer, summarily to suspend their usual occupations, break their business engagements, travel long distances and remain from their homes for an uncertain period, and attend upon District Courts as jurors, is a measure of unwise economy, often productive of great hardship and an unjust imposition of public burdens upon private individuals. We, therefore, demand of the next Legislature such legislation as shall secure to all citizens fair compensation for all the time which they spend, and full reimbursement for all expenses which they incur in performing the duties of juryman in the District Court.

XVIII. Resolved, That we point with pride and pleasure to the able and brilliant record made by our Senator in Congress, the Hon. John P. Jones, in his watchful and vigilant care of our interests upon all occasions, as so fully shown by his unswerving speeches in Congress against the reduction of duties upon foreign manufactures and foreign productions, which exposed in masterly style and in clear and forcible manner the free-trade doctrines of modern Democracy. His able and exhaustive speeches made upon the removal of silver, particularly the last speech in Congress upon that subject, in which he has displayed more strongly his ability to render the obscure subject intelligible to the most common mind, thereby replacing and upholding the old time-honored American dollar of our fathers in its rightful position as part of our circulating medium and standard of value, and his logical and overwhelming arguments in favor of the passage of the Chinese Restriction and Exclusion bill, and amendments thereto, during the last Congress.

Resolved, That our able Representative in Congress, the Hon. William Woodburn, deserves the high and honorable position of this State for his constant zeal and watchful care over the true interests of the people of this State, and that we recognize in him an able statesman, a faithful Representative and an honest man, and we say, "Well done, thou good and faithful servant, renewed honors await thee."

Resolved, That we are unflinchingly in favor of home rule in Nevada, and believe that the men who pay her taxes and whose homes and interests are identified with the State should control its policies.

AMENDMENT.

We believe it is the duty of the National Government to pass laws regulating the great railway corporations of the country, protecting the people from extortion and unjust discriminations, and we approve the principles of the bill passed by the United States Senate, known as the Cullum bill, and urge our Senators and Representative in Congress to have the same enacted upon our national law.

Resolved, That we demand that the next Legislature shall in accordance with the plan known as the Nebraska plan for the election of United States Senators.

DEMOCRATIC STATE PLATFORM.

First—The Democratic party of the State of Nevada, through its representatives in convention assembled at Elko, on the 6th day of September, 1886, reaffirming its hearty endorsement of the declaration of principles adopted by the National Democratic party at the city of Chicago in 1884, among which, upon the question of coinage and currency, are the following plain statements of Democratic faith and the principles upon which the party adhered to the platform of the people of the several States in the late Presidential campaign.

"We believe in honest money—the gold and silver coinage of the Constitution, and such circulating medium convertible into such money without loss."

We therefore demand that good faith shall be observed with the people by the Democratic administration by religiously adhering to the money plan, as it does to every other plank of the Chicago platform.

Second—President Cleveland, in his wise conservative and patriotic administration of our public affairs, both foreign and domestic, challenges our highest admiration, except in his handling the beaten path of a Republican predecessor and the policy of the Republican party on the silver question, in disregard of the cherished principles of the National Democratic party.

Third—We demand of the Administration, at Washington, that it shall second the efforts of the Democratic Representatives in Congress to give the silver free coinage of silver, notwithstanding the formidable combination existing between the gold rings, National Banks and the National Republican party to maintain the single gold standard. The action of the Republican party in California in refusing to insert a silver plank in their platform deserves the condemnation of the silver-producing people of the mining regions of the Pacific Coast.

Fourth—We endorse the policy of applying the surplus in the National Treasury, as fast as it may accumulate, to the payment of the National debt, retiring as rapidly as practicable the National Bank circulation, and the direct issue by the National Government of legal tender Treasury notes, gold and silver coin and coin certificates.

Fifth—We arraign the Republican party before the bar of an enlightened public opinion for its high crime committed against the public peace, and against the best interests of the white laboring classes of both axes, by its inviting and encouraging the influx of Asiatic hordes to our shores under treaty stipulations and under the false path of the Brotherhood of God and the Brotherhood of Man, until there are planted among the people of the Pacific States and Territories, like so many leeches sucking the life-blood of our substance, 150,000 Chinese coolies.

Sixth—We demand the immediate abrogation of the Burlingame treaty and the total suppression of Chinese immigration to America, and we favor legislation providing for the deportation of all Chinese in the United States, and we recommend the exclusive patronage of white labor and its products.

Seventh—The introduction by Senator Fair of his Chinese Restriction bill and his success in passing the same deserves the approval of the entire people of the Pacific Coast.

Eighth—A proper regard for the welfare of the workmen being inseparably connected with the integrity of our institutions, the laboring classes should be protected in their efforts peaceably to assert their rights when endangered by aggregated capital, or by the importation of foreigners and aliens under contract to perform labor, or by the involuntary

POLITICAL.

Ninth—We are in favor of liberal wages and free labor. All associations formed for the purpose of developing intelligence, promoting and protecting the interests of the laborer and mechanic, and to enable successfully to contend for and maintain their rights by peaceful and efficient means against powerful and oppressive combinations, should be encouraged and expressly sanctioned by law, and the Democratic party of Nevada is in favor of the enactment of liberal laws fostering and encouraging the formation of co-operative and protective societies among all classes of laboring men.

Tenth—We approve the action of the Democratic House of Congress in forfeiting and restoring to the public domain for homesteads for actual settlers nearly a hundred millions of acres of unclaimed lands heretofore granted by Republican Congresses to railroad corporations, and we also approve the Act preventing alien ownership of large tracts of public lands in the United States.

Eleventh—We commend the policy of the present Administration in strictly enforcing the tariff laws, the beneficial effect of which is so happily illustrated by the fact that the great wool-growing industry of the country receives more protection now by collecting the duties on import duties on wool, than it did under the high tariff of 1867 under the practice by the Republican officials of letting foreign wool slip through our Custom Houses at less than one-half of said duties.

Twelfth—In behalf of the mining industry of this State, and of the miner—the pioneer of civilization in this country—we earnestly recommend to the authorities at Washington the immediate opening and permanent running of the United States Mint at Carson City, to the end that our mines may be relieved from the unnecessary and burdensome expense of shipping their bullion three thousand miles away for market, and we hereby commend the efforts of Senator Fair to accomplish this result.

Thirteenth—Generous provision, State and county, should be made for the support of public schools. They are established for the benefit of all our people, and should be maintained entirely free from religious or political bias. We believe in thorough and efficient school supervision, and are in favor of such legislation which will last promote the educational interests of our State.

Fourteenth—The depression of our mining interests, a prominent factor in our revenue resources, necessitates the strictest economy in all branches of our government, both State and county, and we demand of all our public officers that all possible retrenchments be made consistent with the proper discharge of the duties of their several offices.

Fifteenth—In common with the Democracy of the country we express our sympathy with Ireland in her great struggle for Home Rule. The friends of liberty throughout the world are deeply interested in the effort which the supporters of Gladstone and Russell are making to give the right to the people of Ireland the long-suffering and greatly wronged Irish people, and we sincerely hope that the struggle of Ireland for her just rights shall be crowned with complete success.

Resolved, That in common with the Democracy of the whole country we sincerely lament the loss of the late Vice-President of the United States, Thomas A. Hendricks, the pure and trusted leader, whose cordial counsel and patriotic teachings have become the common heritage of our common country. We also profoundly deplore the sudden and brief passage of time the Nation, and particularly the Democratic party, has suffered the loss of four other eminent citizens in the persons of the gallant leader George B. McClellan, the pure and wise statesman, Horatio Seymour, the superb hero, General Winfield Scott Hancock, and more recently the demise of the discerning statesman, sagacious counselor, and profound political philosopher, Samuel J. Tilden.

IN MEMORIAM.—The following are the resolutions adopted by the class of '86 of Napa College, upon the death of Miss Rose Ede, which occurred September 30th, 1886, at San Francisco:

Whereas, It has pleased an Allwise Providence to call home to her heavenly rest, in the bloom and promise of youth, our dearly beloved sister and classmate of '86, Rose V. Ede, therefore,

Resolved, That we, the members of her class, have learned, during our former intimate relationships to love our departed sister for her purity of life and nobility of character.

Resolved, That we deeply feel the irreparable loss our class has suffered and fondly cherish her memory, trusting in our Heavenly Father for a final reunion on the other shore.

Resolved, That we extend our heartfelt sympathy to her parents and friends who know her best, and can more fully appreciate the value and goodness of her life.

Resolved, That each member of the class wear a badge of mourning for thirty days; and further, that these resolutions be engraved for her parents and each member of her class, and that copies be furnished to the local papers of Napa and Reno for publication.

THE FAIR AT WABUSKA.—A special to the Enterprise of the 11th, says: The Lyon County Fair opened to-day in good shape considering the threatening weather. There are a great many exhibits of all descriptions arriving at the Pavilion. One car-load of Durhams and two cars of racing stock are on the grounds, also a considerable number of stallions, cattle, sheep, etc. Reports tend to show a great many exhibits of all kinds on the road. To-morrow will see everything filled and in good order.

The racing programme for to-morrow (Tuesday) is one single dash, quarter of a mile, for saddle horses; one dash, quarter of a mile, free for all, and a one mile dash, free for all, all running races. The weather is clearing and there will be a good attendance to-morrow. There were no races to-day as the weather threatened snow and retarded the arrangements. A good deal of stock is arriving this evening.

A CONSULTATION ABOUT THE COMBINATION.—Superintendents W. H. Patton, R. P. Keating and Sam Jones left for San Francisco last Saturday evening. There is a rumor to the effect that all the principal mining men have been called together to ascertain if it is possible for all the mines to stand in and pay their part of the expense, and in that way keep the Combination running by sinking deeper and solving the problem whether or no there can be found any large paying body of ore on the lower levels.

HOSE MEETING.—The members of the Fearless Hose Company are requested to meet at their rooms this evening at 9 o'clock sharp, as business of importance will come before the meeting. A full attendance is desired.

A NEW ARRANGEMENT.—Halstead & Sherman, who have the contract for carrying the mail from here to Susanville and Quincy, will hereafter connect with the Nevada and California road at Moran. Satisfactory arrangements have been made with the railroad for carrying the mail, express and passengers from Reno to Moran. The change took place yesterday morning.

STEWART'S CANDIDACY.—The Carson Tribune says:

Each succeeding day proves that in looking round the State for a representative in the U. S. Senate, W. M. Stewart is looming up as the coming man, and more especially so that the name of the probable Democratic candidate is sent abroad. A few days will tell the tale of who Senator Fair's selected benchmark is, whether Bob Keating or George Cassidy or who. The general impression seems to be that a compromise will be made, and most surely Stewart's star is in the ascendant.

A HARD WINTER FOR STOCKMEN.—Owing to the shortness of grass the stockmen of Utah, Montana and Texas will winter their cattle in the Washoe Valley and near the Sink of the Humboldt, where the grass is of good quality, and where there is an abundance of feed for the cattle in case the grass gives out.

What Tailorage Thinks of our Cities.

NEW YORK, October 11.—The Rev. T. DeWitt Talmage, in a recent sermon, said: "I got a letter a few days ago, asking me if I did not think that the earthquake in Charleston was the Divine chastisement on that city for its sins. That letter I answer now by saying that if all of our American cities got all the punishment they deserve for their horrible impurities, the earth would long ago have cracked open into crevices transcontinental and taken down all our cities; and Brooklyn and New York would have gone so far under that the tip of our church spires would be 500 feet below the surface. It is of the Lord's mercies that we have not been consumed."

The Gazette truly says:

The practice of enemies arming themselves and going to shooting the moment they meet in a crowd on the streets, has made enough trouble in Reno and should be stopped summarily. It is the greatest wonder in the world that some outsider was not killed in the row Saturday night, where seven or eight shots were fired at each other by O'Keefe and Fitzpatrick. A man is only justified in shooting at another to save his own life, and where they hunt up a row they should be punished.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-nwt-17.

GRAND OPENING OF THE TEMPLE OF FASHION, OCT. 1ST TO 6TH INCLUSIVE.—Mrs. Hessel respectfully invites the ladies of Reno and vicinity to attend the grand opening of the Temple of Fashion at which time she will have on exhibition the largest and most complete stock of millinery goods ever displayed in this city. She also takes pleasure in announcing to her friends and patrons that she has also secured for the coming season an experienced artist whose ability and refined taste will be a guarantee of perfect satisfaction to all.

PARKER'S MAP OF NEVADA.

PARKER'S NEW MAP OF NEVADA.

THIS NEW AND BEAUTIFUL

MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.

John W. Parker,
Reno, Nevada.
